

Our Trip to Eaton vale

By

*Nicole, Jessica, Amy and
Helaina Yr 7 and 8*

What did we learn from the trip?

- Sign language
- Conquered our fears
- Met new people
- Got experience of new things e.g. canoeing
- Developed team working skills
- We also learnt how to communicate with new people.

Sign language

We met a boy named Lee who taught us sign language, the vowels first and then he taught us the alphabet. We looked at how to sign our names. This helped us communicate with deaf people.

Conquered fears

We all faced our fears of heights and drowning or sinking by going canoeing in a boat in water using a paddle. We also faced our fears of heights by doing crate stacking. Crate stacking is where you are strapped in a harness and stand on crates while they become higher.
